

RoHS Certificate of Compliance

“Directive 2011/65/EU (the RoHS Directive) OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 8 June 2011 on the restriction of the use of certain hazardous substances in electrical and electronic equipment” superseding “Directive 2002/95/EC (the RoHS Directive) OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 27 January 2003.

Based on the information provided by our production lines, and our certain knowledge pertaining to our own processes, products supplied by Fineline QPI are RoHS compliant for orders placed on or after the January 1, 2006. Products supplied on or after January 3, 2013 are also RoHS compliant according the Directive 2011/65/EU.

Customer orders which explicitly required soldering with lead tin solder have been the sole exceptions to the Fineline QPI B.V. compliance.

The confirmation of compliance status by our supply lines is granted for products which do not contain any of the restricted substances referred to in article 4(1) of the RoHS directive at concentrations in excess of those permitted under the RoHS directive.

For these purposes the maximum concentration values of the restricted substances by weight in homogenous material are:

Lead	0,1%
Mercury	0,1%
Cadmium	0,01%
Hexavalent chromium	0,1%
Polybrominated biphenyls (PBB)	0,1%
Polybrominated diphenyl ethers (PBDE)	0,1%

Fineline QPI B.V. has taken all reasonable steps to verify the supply line information regarding the absence of the restricted substances.

Helmond, 18-06-2018
